ExInt.

**JANUARY**

## **From Glasgow to "Sharm El-Sheikh" Business Roundtable with COP26 – President Alok Sharma at British Embassy in Egypt**

Dr. Ehab Shalaby, Chairman of DCarbon Egypt, participated in the business roundtable organized by the British Embassy in Egypt along with business leaders, investors in Egypt, and companies with recognized efforts in fostering Egypt's Green Economy.

The meeting comes in the context of enabling the private sector to participate effectively in combating climate change as well as addressing challenges and opportunities in green finance on one hand and ensuring success at COP27 on the other hand.

We would like to thank his excellency ambassador Gareth Bayley and the embassy team for their efforts and look forwards to a successful Cop in Egypt and the UAE.

## TCI Sanmar Chemicals S.A.E – Environmental Product Declaration

DCarbon team of environmental experts developed the Lifecycle Assessment and EPD according to the EN 15804+A2 and the ISO 14025 standards becoming the first Egyptian consultancy firm to do so.

PVC is extensively used in construction. With an EPD for this product, we are one step closer to learning more about the embodied carbon within our buildings. TCI SANMAR CHEMICALS SAE is the first petrochemical industry in the MENA region to publish an EPD, marking a significant milestone in Egypt's industrial sustainability.

EPDs communicate any product's environmental performance or impact transparently and are demanded by many countries.

Dr. Ehab participated in the third discussion panel, "Green Economy and Sustainable Development".

JUNE

## Pre-COP Briefs

### COP 27 STARTS NOW

Egypt's host of the Conference of the Parties to Climate Change is a strategic global event that confirms Egypt's position in the international community, especially since the phenomenon of climate change has become a catastrophe that affected everyone and should be dealt with seriously and effectively.

Proceeding from our social responsibility regarding the contribution to the organization of this important event, DCarbon Egypt developed an initiative to contribute to the preparation and success of the conference.

This initiative stems from the need to mobilize all parties of society (the private sector, civil society organizations, youth, international organizations, and government institutions) through multiple tracks.

## Sustaining Sectors Program; The Green Built Environment" Initiated by the CIB

Dr. Ehab Shalaby, Chairman of DCarbon Egypt, participated in the "**Sustaining Sectors Program; The Green Built Environment**" initiated by the CIB visionary leadership at JW Marriot Hôtel – New Cairo on 31st May 2022.

This program is a knowledge and action-oriented program introduced by CIB for leading corporates as part of CIB's initiative and exerted efforts to help corporates in different sectors leverage sustainability practices to realize their potential and advance their growth while driving system transformation toward a circular economy.

Dr. Shalaby Presented the Business Case behind the transformation toward A Green Built Environment, mainly leadership, investments, borrowing, operational efficiency, and compliance pillars

Dr. Shalaby stated that "**Egypt needs more financial support to create an adequate environment for green constructions and buildings. These investments should facilitate the access to innovative technologies to process raw materials in a sustainable manner**".

Also stated that 38% - 40% of global greenhouse gas emissions come from the construction sector."

## Shaping a Circular Blue Economy in the Mediterranean Conference was successfully held in Cairo

Under the **BLUEfasma Project** which is funded by Interreg MED Programme 2014–2020 in cooperation with **DCarbon Egypt** and the support of the **Circle the MED Forum**, a conference was held in Cairo on during 27 and 28 June entitled "Shaping a Circular Blue Economy in the Mediterranean" in both physical and online formats. The conference discussed ways to enhance interactions between the main actors in the sectors of the blue economy from both sides of the Mediterranean, to identify common challenges and opportunities and to share best practices for the transition to a circular economy. Tools, methods, and recommendations to increase the capacity for innovation were presented. Experts from Brussels, Greece, Italy, Spain, France, Egypt, Tunisia and Morocco along with representatives of many countries around the Mediterranean participated in the conference. The attendees concluded with the importance of working to activate a strong cooperation to implement key elements of the blue economy: preserving the marine environment and developing sustainable fisheries.

The panel "**Regional cooperation for a Circular Blue Economy in the Mediterranean**" welcomed representatives of DG MARE, the UfM, MedWaves, EEAA Egypt and the BLUAMED initiative to discuss about current and future plans and initiatives shaping the Circular Economy transition in both shores of the Mediterranean.

## JUNE

The panel "Boosting public-private partnerships for a Circular Blue Economy" followed, examining challenges and potentialities of public-private partnerships, insights and experiences to identify barriers and opportunities related to circular blue economy entrepreneurship and public investments. In the next session entitled "Challenges and opportunities of the Fisheries sector in Egypt" the panelists focused on the challenges faced by the fishing industry in Egypt due to lands' deterioration and high competition with the agriculture sector. The impact of the rising costs of exploitation and the impact of climate change were also discussed as strong elements impacting the sector. During the last session "How can circular practices benefit the economy?" projects' results funded by Interreg MED, ENI-CBC and EEA Grants were presented including best practices and innovative tools enabling the circular transition and increased innovation performance were presented.

The first day was concluded with Mr. George Kremlis President of Circle the Med Forum, Principal Advisor to the Greek Prime Minister for energy, climate, environment and circular economy, Honorary Director, EC, mandated by DG ENV for Circular Economy and Insularity, who pointed out that **"it is important to establish in this difficult time a strong blue economic system in the Mediterranean to preserve the marine environment"**. Mr. Kremlis emphasized that the Mediterranean is threatened by the climate change crisis, and we place great hopes on the upcoming COP 27 climate conference in Sharm El Sheikh, which Egypt will organize next November.

On the second day, the participants had the chance to gain on-site "blue economy experience" on a field visit. Participants visited a small pilot project of an aquaponics farm, in the peripheral Cairo.

JUNE

## Catalyst To Decarbonization C2D

DCarbon and ECOsnult Architecture signed an MOU to create Egypt's fully integrated sustainable solutions consultancy.

Catalyst To Decarbonization C2D is a coalition to bring about holistic and integrated strategies assisting private and public sectors to join the transition towards becoming more sustainable and climate resilient. C2D is multidimensionally working towards making companies more green spanning sectors across services, products, and assets, as well as partnering from strategy to implementation. The focus is reaching emissions reductions, measuring and forecasting future trends, and making C2D a trusted market leader. Combined ECOsnult Architecture and DCarbon have led the green and sustainability agenda with successfully implemented and globally accredited projects.

JUNE

## The Big 5 Construct Egypt – Leadership Conference

Dr. Ehab Shalaby – Chairman of DCarbon Egypt, participated in The Big 5 Construct Egypt – Leadership Conference.

Dr. Shalaby participated in the discussion panel: -Pathway to COP 27: Responsibility and contribution of construction & infrastructure industry to climate change. With an estimated \$519bn of projects planned or underway, Egypt is Africa's biggest projects market, and the need to reduce the carbon footprint of projects is very important. COP 27, hosted by Egypt in 2022, will emphasize the urgency of action required to address.

- The gaps in ambition across mitigation, adaptation, loss, and damage, and finance.
- Collaboration between public and private sectors to work together on lowering the commitment and action gap.
- Net-zero carbon emissions and expansion of renewable capacity to cover 42% of the country's energy needs by 2030.
- Decarbonisation of select downstream facilities in Egypt led by a coalition of energy transition leaders.

JUNE

## The 4<sup>th</sup> Strategies for Transition to Green Economy Forum

Dr. Ehab Shalaby, PhD – Chairman of DCarbon Egypt participated in the 4th Strategies for Transition to Green Economy Forum entitled "Growing sustainable sectors" at the Nile Ritz Hotel.

دكتور إيهاب شلبي: إن استضافة مصر لمؤتمر المناخ القادم فرصه جيدة لمصر لتنفيذ مشروعات خضراء. وأن هناك مسؤولية مشتركة لدى الدول المتقدمة لدعم الدول النامية في قضايا التصدي للتغيرات المناخية وتوفير التمويلات لها ، مؤكداً أن الحرب الروسية الأوكرانية قد تؤثر على هذا الملف مستقبلاً.

## The EBI's 10th Annual Conference

Dr. Ehab Shalaby—Chairman of DCarbon Egypt, participated in the **EBI's 10th Annual Conference & Exhibition**, The Evolution of Banks: Unlocking the Full Potential.

The discussion panel “**Banking on Sustainability: What's next?**” covered how creating the future of banking requires aligning with the global frameworks to achieve sustainability.

JULY

## The Egyptian Exchange is the first Exchange Globally to train and certify all listed companies on preparing sustainability reports in accordance with internationally recognized standards and principles

DCarbon Egypt would like to extend its appreciation to The Egyptian Exchange and EGX Foundation for Sustainable Development for the continuous support and the honorary ceremony held on the occasion of training and certifying 104 listed companies' representatives on preparing sustainability reports in accordance with the Global Reporting Initiative (GRI) Standards.

These efforts come within the framework of activating the cooperation protocol between DC Carbon & the Egyptian Exchange Foundation for Sustainable Development and under the auspices of the Chairman of the Board of Directors of the Egyptian Exchange, which aims to raise the efficiency of representatives of listed companies in preparing sustainability reports in accordance with international standards, notably the global reporting initiative standards.

This step comes due to the importance of these reports in attracting sustainable investments and financing locally and globally and comes to supplement the national efforts in fostering sustainability practices and fighting climate change, especially after the international community vested its trust in Egypt to host COP27 next November in Sharm El-Sheikh. It is worth noting that the training for the rest of the listed companies will be completed in September and October 2022, and hence the Egyptian Exchange will be the first Exchange Globally to train and certify all listed companies on preparing sustainability reports in accordance with internationally recognized standards and principles.

JULY

البورصة المصرية الاولى عالميا في تدريب شركاتها المقيدة حول اعداد تقارير الاستدامة وفق معايير المبادرة العالمية لاعداد التقارير GRI مع انتهاء البرنامج التدريبي الحالي.

تتقدم شركة دي كاربون لاستشارات الاستدامة والتغيرات المناخية بالشكر والتقدير لمؤسسة البورصة المصرية للتنمية المستدامة ومجلس إدارة البورصة المصرية علي التعاون المثمر وإتاحة الفرصة لتدريب الشركات المقيدة في البورصة علي اعداد تقارير الاستدامة وفقاً لمعايير المبادرة العالمية لاعداد التقارير GRI.

كما تتوجه الشركة بالشكر والتقدير لممثلي الشركات المقيدة على الوقت والجهد المبذول خلال الدورات التدريبية وتمني لهم دوام التوفيق.

وتأتي تلك الجهود في إطار تفعيل بروتوكول التعاون مع مؤسسة البورصة المصرية للتنمية المستدامة، وتحت رعاية رئيس مجلس ادارة البورصة، والهدف الذي رفع كفاعة ممثلي الشركات المقيدة لاعداد تقارير الاستدامة وفقاً للمعايير العالمية لما لها من أهمية في اتخاذ الاستثمارات والتمويلات المستدامة محلية وعالميا وخاصة بعد طرح المجتمع الدولي ثقته الكاملة في مصر لاستضافة مؤتمر الأطراف للتغيرات المناخية في نسخته السابعة والعشرين نوفمبر القادم بمدينة شرم الشيخ.

ومن الجدير بالذكر ان الدورات التدريبية لباقي الشركات المقيدة سوف يتم استكمالها شهري سبتمبر واكتوبر لتصبح البورصة المصرية هي الاولى عالميا في تدريب جميع الشركات المقيدة علي اعداد تقارير الاستدامة وفقاً للقواعد والاسس المتعارف عليها عالميا.

وفي هذا الصدد تتوجه شركة دي كاربون للمبادرة العالمية لاعداد تقارير الاستدامة بالشكر والتقدير لاعتماد المتدربين لديها. وأخيرا يتوجه خبراء التدريب بشركه دي كاربون والفريق المساعد بالشكر والتقدير لإدارة البورصة علي التكريم وشهادات التقدير متمنيين دوام التعاون المثمر

## Be an Ambassador for Sustainable Development

**Mr. Hussein Gubran** - our Sustainability Researcher became a Sustainability Ambassador and one of the graduates of the «**Be an Ambassador for Sustainable Development**» initiative, which was launched by the Ministry of Planning and Economic Development and the National Institute for Governance and Sustainable Development.

The initiative aims to spread awareness about Egypt's Strategy for Sustainable Development (Vision 2030) and build national capacities in the field of sustainable development through a series of training courses for various sectors and groups of people.

SEPTEMBER

## N Gage and DCarbon Announced Strategic Integration Accelerating Climate Action and Sustainability in Egypt and the MENA region

COP 27 anticipated to catalyze financing surge towards climate change mitigation in Egypt and MENA by over 100%.

Cairo, 4 September 2022 – N Gage, the region's first Egypt-based public policy and government affairs consultancy, and DCarbon, spearheading advisory on climate change mitigation and sustainability, today announced an integration partnership to help companies and organizations in Egypt and across MENA transform their climate and sustainability pledges to on-ground progress. With the COP27 UN Climate Change Conference on the horizon, the impetus towards driving action on climate change and sustainability is shaping local and global policies. N Gage and DCarbon's integration is the convergence of forward-looking public and climate policy expertise bringing together over 20 policy and sustainability specialists backed by eight specialized centers of excellence.

Designated in May 2022 by the Ministry of Foreign Affairs, as the COP27 Knowledge, Communication and Advocacy partner, N Gage's partnership with DCarbon now allows organizations to benefit from an unmatched proposition to reinforce their climate action and sustainability narrative by implementing transformative policies towards net-zero carbon targets.

## Credit Agricole – Carbon Footprint Report

SEPTEMBER

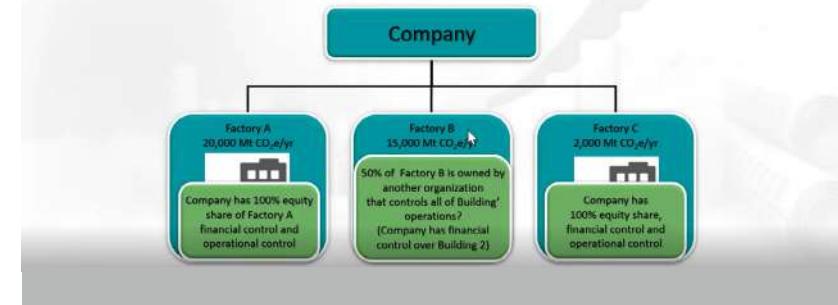

## Carbon Footprint Management Training 3<sup>rd</sup> and 10<sup>th</sup> of September

Carbon Footprint (CFP) reporting for businesses and corporates has become essential since it helps in identifying the waste or inefficiencies within a business in terms of energy, raw material consumption, and other business-related aspects. Knowing the total Green Houses Gases (GHG) emissions and the sources that are largely contributing to it is vital in managing GHG emissions and putting well-structured and science-based targets to reduce corporate carbon footprint and align with both Paris Agreement and the Egyptian National strategies.

### Organizational Boundaries

What are the total Company's emissions for the three consolidation approaches?

### Importance of Scope 3 Emissions

- Business goals for carrying out a scope 3 assessment as the following:

## The second edition of the Egypt – International Cooperation Forum (Egypt-ICF)

Our team of Senior Associates, Associates, and researchers attended **the second edition of the Egypt – International Cooperation Forum** held between 7 – 9 September at St. Regis Almasa Convention Center -New Administrative Capital. The second edition of the Egypt – International Cooperation Forum and Meeting of the African Ministers of Finance and Environment aims to highlight Africa's needs and ambitions towards the climate change agenda and identify the necessary support to develop their updated nationally determined contributions (NDCs) before COP27.

This year the conference included several objectives:

- Amplifying African voices to mobilize international support for the green and resilient recovery.
- Crystallizing African key messages on climate finance.
- Engaging global leaders on financial and technological contributions to climate actions in Africa.
- Providing a potential platform for a number of African countries to present their revised NDCs & announce long-term strategies.
- Exploring innovative solutions for just access to finance and technology for green recovery.
- Strengthening & promoting inclusive dialogue with all stakeholders.

## IFC Round Tables

### TOWARDS A GREEN BUILT ENVIRONMENT IN EGYPT

#### The Voice of the Full Value Chain

September 18<sup>th</sup> – 19<sup>th</sup> | IFC – International Finance Corporation held 2 round tables for more than 80 participants representing the whole value chain of the built environment together with banks and investors to address barriers towards greening the construction materials sector in Egypt. These round tables are part of the IFC and world bank program of scaling up climate finance supported by IKI Germany.

Throughout 2 full days, stakeholders across the whole value chain of the built environment discussed the potential reductions and technological and financial barriers towards developing a roadmap for bankable green projects. For the roadmap to be impactful DCarbon Egypt and Arup facilitated the discussion among stakeholders to root the initiative's identity being, 100% reflecting the Egyptian context. DCarbon Egypt would like to thank all the stakeholders across the whole value chain of the built environment and financial sector participants in Egypt for their fruitful contributions and informative discussions that will facilitate the development of a future roadmap for sector decarbonization.

Your sector contributes enormously to socioeconomic development in Egypt, your voice has been heard, and your inputs will inform the roadmap. DCarbon Egypt & Arup facilitated these roundtables, and the discussions; brought all the stakeholders together.
