TCI SANMAR CHEMICALS SAE - Sustainability Report 2021-2022

TCI Sanmar Chemicals, the largest producer of Caustic Soda in Egypt and the largest manufacturer of Polyvinyl Chloride in the MENA region announced the official release of its Fourth Sustainability Report. The report, titled "**Road to Green Production**", was developed in accordance with the **Global Reporting Initiative (GRI) Standards**, in alignment with the United Nations' Sustainable Development Goals (SDGs) and the national sustainable development strategy 'Egypt Vision 2030'.

The report was released by H.E. Sameh Fahmy, former Minister of Petroleum and Director on the Board of TCI Sanmar Chemicals and H.E. General Mostafa El-Behairy, Director of TCI Sanmar Chemicals received the same in the presence of Mr. P.S. Jayaraman, Chairman, and Mr. S Ganeshkumar, Managing Director of the company.

The report positioned TCI Sanmar at the forefront of companies adapting to green, sustainable production within its operations. The company became the first in the MENA and African region to tap into unconventional ways to produce non-fossil fuel-dependent PVC. It also became the first in the petrochemical industry to issue an environmental product declaration for PVC.

TCI Sanmar is one of the few petrochemical companies in the MENA region that publishes an annual sustainability report, in compliance with the GRI standards and guidelines.

Dr. Ehab Shalaby Joined the Board of Trustees for The Arab Network of Sustainable Development Experts

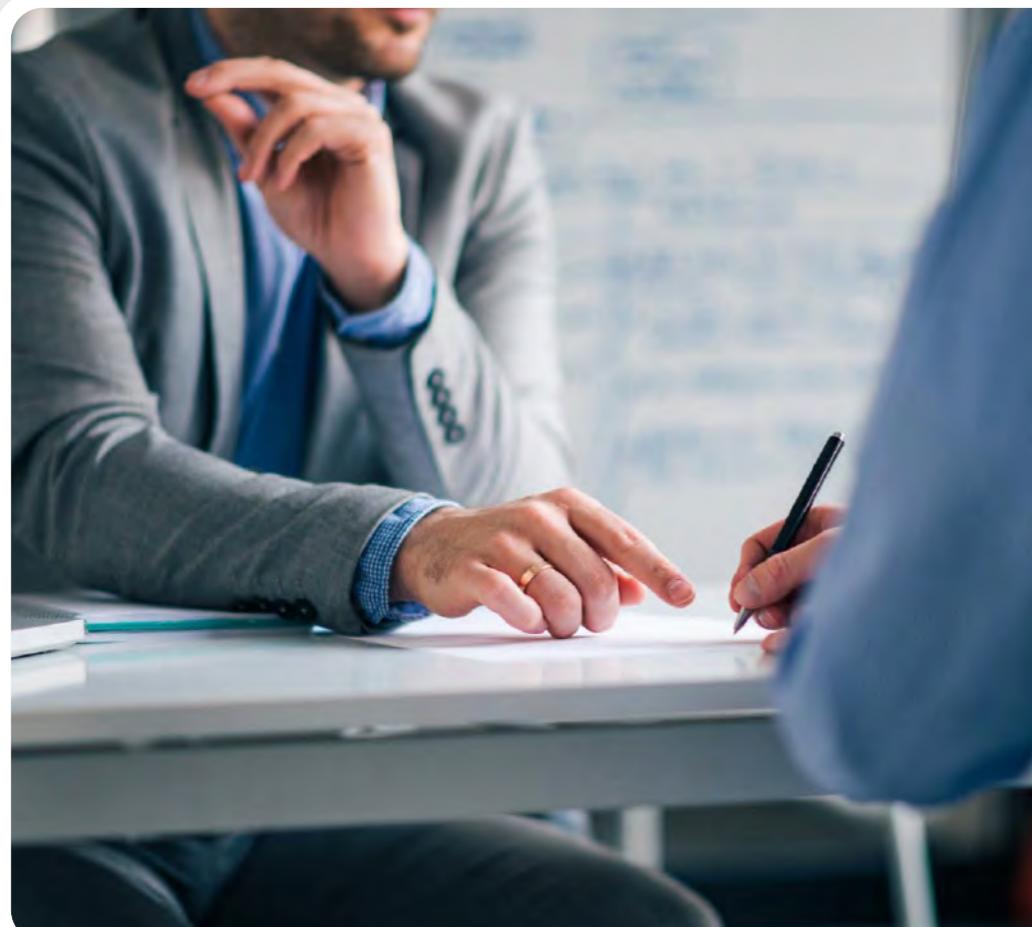

Under the umbrella of **The League of Arab States**, we are pleased to announce that **Dr. Ehab Shalaby**, Chairman and CEO of DCarbon Global, has recently joined the Board of Trustees of «**The Arab Network of Sustainable Development Experts**,» headed by/chaired by Dr. El-Ramadi Bin-Qa'ad Al-Saqri.

This is in response to the recommendations of the Arab Sustainability Forum and the Arab Forum of Social Responsibility Experts (Feb. 2021) to establish an Arab entity that frames sustainability and social responsibility standards in accordance with international standards. The network was created to act as a foundation for the Arab sustainability development stakeholders and to improve social responsibility and sustainability standards throughout the Arab world.

DCarbon Annual Strategy Meeting

DCarbon Egypt hosted its annual strategy meeting for the year 2023, which was attended by our chairman, esteemed board of directors, company experts, and employees. The event was held at the Four Seasons Hotel - First Mall where our team had the opportunity to discuss and shape our vision for the year ahead.

At DCarbon Egypt, we strongly believe in the power of collaboration and teamwork, ensuring that all our stakeholders have a voice in shaping our strategy. The annual strategy meeting provides a platform to discuss our achievements, challenges, and opportunities and chart a path forward.

During the event, we engaged in fruitful discussions and brainstorming sessions, where everyone's input was valued and appreciated. Our team identified key areas that we need to focus on, and we are excited to implement our new strategy to drive the company's growth.

DCarbon Assumes New Role as Service Provider for the Principles for Responsible Investment (PRI)

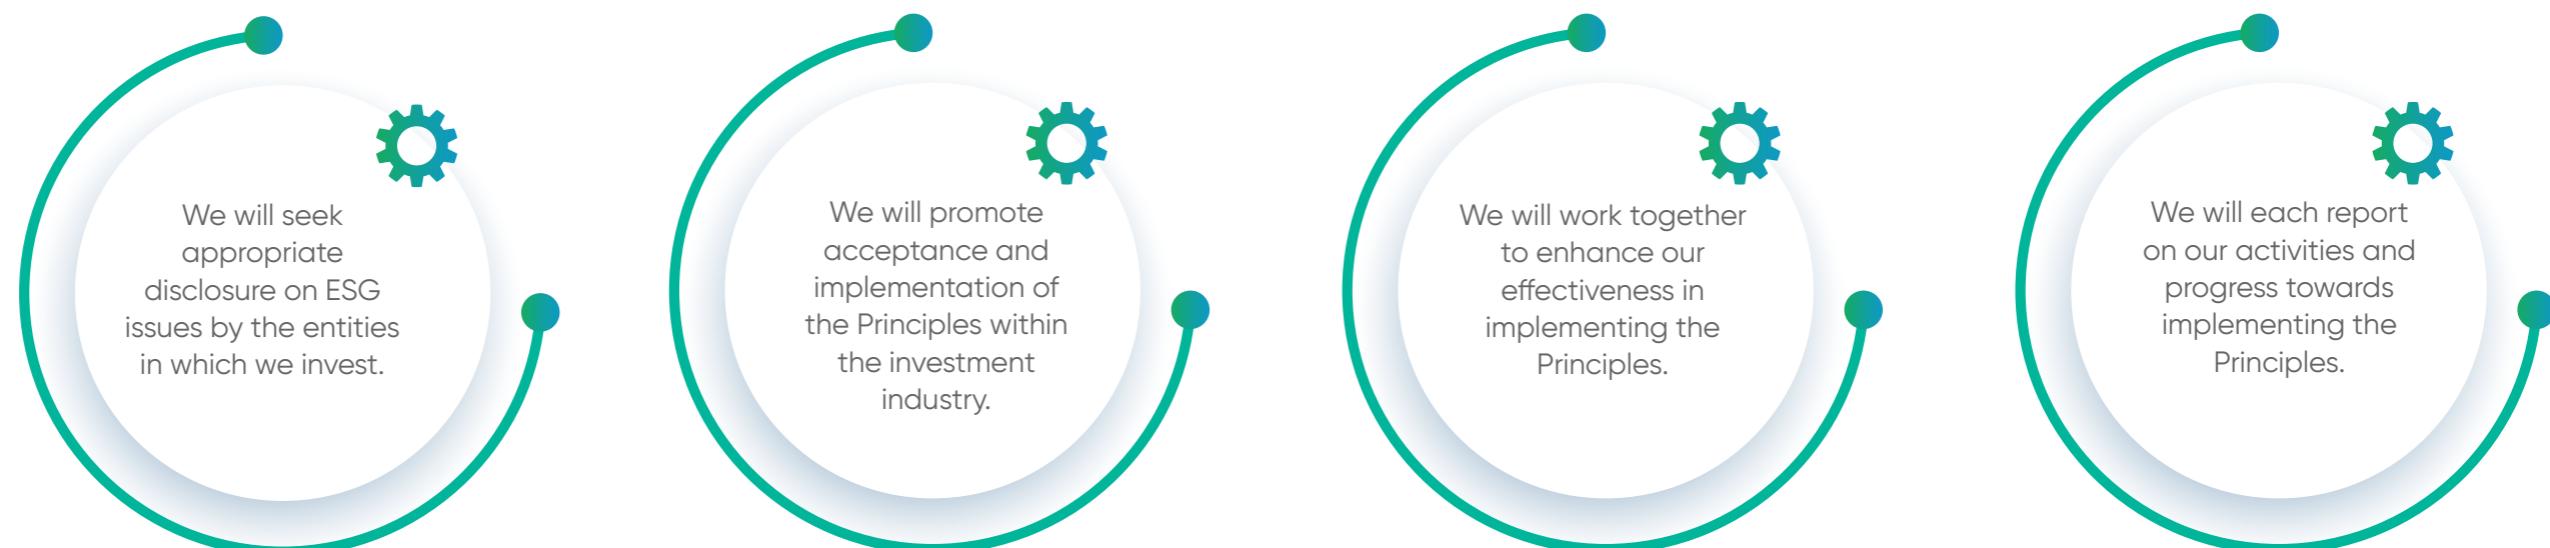

DCarbon Egypt announced a new role as a service provider for the Principles for Responsible Investment (PRI).

The PRI is a global network of financial institutions committed to promoting sustainable investment practices, supported by the United Nations. The network's six principles guide signatories in incorporating environmental, social, and governance factors into their investment decision-making and ownership practices, contributing to the development of a more sustainable global financial system.

The Principles offer a comprehensive framework of actionable steps that can be taken to incorporate sustainability issues into investment practices across various asset classes.

It is important to note that responsible investment is not a one-size-fits-all approach and must be tailored to fit each organization's investment strategy, approach, and resources. Nevertheless, the Principles are designed to be compatible with the investment styles of large, diversified, institutional investors that operate within a traditional fiduciary framework.

The six principles are as follows:

Banque Misr – PRB Progress Report

This report highlights the third progress report for Banque Misr (BM) on its implementation of the Principles of Responsible Banking (PRB). BM signed the UN Principles of Responsible Banking along with 300 other international banks.

The signatories, representing one-third of the total assets of all banks worldwide, agreed to align their business strategies with the UN Sustainable Development Goals and the Paris Climate Agreement.

This report highlights the initiatives and measures taken by Banque Misr to progress towards implementing the principles and create value for all its stakeholders. BM applied the latest version of the Portfolio Impact Analysis Tool (Version 3), developed by the Positive Impact Initiative, the signatories of the Principles for Responsible Banking, and the United Nations Environment Programme Finance Initiative (UNEP-FI).

Ain Shams University Honours DCarbon with Sustainability & Climate Change Partner Award

The prestigious Award was granted for the innovative study on "Decarbonizing patient Journey Pathway".

During the 11th annual international conference of Ain Shams University, Prof. Dr. Mahmoud El-Metiny, the President of Ain Shams University, awarded DCarbon the prestigious Sustainability and Climate Change Partner of Ain Shams University in recognition of their pioneering role in developing an innovative study on decarbonizing the patient journey pathway. The study, conducted in collaboration with Sanofi and Ain Shams University, aimed to calculate the reduction of Greenhouse Gas (GHG) emissions resulting from Telemedicine by piloting Atopic Dermatitis and asthma virtual clinics at Ain Shams University Hospital. The methodology applied involved a comprehensive analysis of the environmental impact of regular patient visits, identifying areas for improvement, and implementing virtual clinics as a sustainable alternative. The study yielded highly encouraging results, demonstrating a significant reduction in carbon emissions and energy consumption, thus contributing to the global effort to combat climate change.

During the 11th annual international conference of Ain Shams University, Dr. Mahmoud Moheieldien was honored with an Honorary Doctorate for his contributions to sustainability and climate change. Additionally, Vodafone Egypt, Sanofi, and DCarbon were recognized for their contributions to the digitalization of the healthcare sector in Egypt.

Speaking at the event, Dr. Nasser Ayoub, PhD, Environmental and Lifecycle Assessment Expert, expressed gratitude for the award and emphasized DCarbon's commitment to sustainability and innovation in the healthcare sector. He stated, *«We are honored to receive this award from Ain Shams University, which acknowledges our dedication to sustainability and innovation in the healthcare sector. At DCarbon, we strive to create innovative solutions that benefit the environment and contribute to the well-being of our communities.»*

Dr. Ehab Shalaby, PhD, CEO of DCarbon, added, *«Our mission at DCarbon is to innovate and shape a better future for all. We remain committed to supporting impactful projects that promote a healthier planet and a more equitable society. Our direction is clear - we will continue to prioritize sustainability and climate change efforts to work toward a more sustainable and resilient world.»*

The 11th annual international conference of Ain Shams University also featured a panel discussion that highlighted present and future cooperation efforts and plans between Ain Shams University, Vodafone Egypt, and Sanofi.

DCarbon launching Carbon & Carbona in decarbonization Efforts

As a part of Darbon's ongoing efforts to raise awareness, Dcarbon decided to launch Carbon& Carbona in decarbonization efforts to empower people to tackle climate change challenges.

Decarbonization is not just a technical or a financial challenge; it is also, a political and social one. The decision-making process around decarbonization and climate change tends to happen at a high political level, with limited input from the public.

level, with limited input from the public. This article explores the concept of democratization of decarbonization and how it can empower people to tackle climate change. Moreover, Climate change has become one of the defining issues of our time, and the world is racing against time to mitigate its impacts.

Decarbonization is one of the most critical steps towards this goal, and it involves a massive shift from carbon-intensive pathways to low or zero-carbon alternatives ones. However, decarbonization is not just a technical or financial challenge; it is also a political and social one. The decision-making process around decarbonization and climate change tends to happen at a high political level, with limited input from the public. This article explores the concept of democratization of decarbonization and how it can empower people to tackle climate change.

The democratization of decarbonization involves empowering people to participate in the decision-making process around climate change and decarbonization. This includes involving people in the development of policies and regulations, as well as in the implementation of these policies at the local level. When people feel involved in the process, they are more likely to support and implement the policies, leading to greater success in achieving decarbonization goals.

Kuwait Finance House's 2021 Sustainability Report

KFH's 2021 Sustainability Report «Responsible Banking for Sustainable Growth» is the second edition that reflects the bank's journey of four decades of service and leadership position in Kuwait and the region.

The purpose of the Report is to enhance transparency, accountability, and communication with all stakeholders by achieving multiple objectives, including monitoring and reporting of the bank's EESG performance, providing a broad defined set of disclosures that address all stakeholders, complementing and supporting the Bank's corporate disclosures, and allowing stakeholders to provide additional perceptions and opinions about their expectations or concerns. The Report aims to demonstrate KFH's commitment to responsible banking practices, which prioritize the long-term well-being of all stakeholders and showcase how the bank is integrating sustainability into its business operations and strategy.

DCarbon Launched DCarbon Global

With Alliances and Partnerships in Europe & USA, and Operating Headquarter in Abu Dhabi, UAE

We are thrilled to announce the Establishment of DCarbon Global to Serve the Middle East, Arab States, and Africa

After 6 years of Leading and Managing Sustainable Transition in Egypt and the Middle East, DCarbon is thrilled to announce the launch of DCarbon Global.

The new ESG advisory mandate is to facilitate, manage and foster sustainable transitions, revolutionize and revisualize ESG Data infrastructures and ecosystems, customize the transfer of know-how, technology, and best practice, and foster ESG strategy and policy implementation.

Through a network of strategic alliances & partnerships in the USA, Belgium, Netherlands, Germany, Sweden, Switzerland, and the UK, Dcarbon Global will work on harmonizing global north and global south ambitions and actions towards a desired common future.

DCarbon Global will adopt a progressive holistic approach in addressing ESG opportunities, risks, challenges, and innovative solutions, through a multi-stakeholder approach including international and regional organizations, national governments and regulators, MDBs, IFIs public and private sector organizations, and CSOs.
Information on partnerships and services will be communicated shortly.

DCarbon Sponsored the IFRS Integrated Thinking & Reporting Conference

DCarbon joined and supported the efforts of the IFRS Integrated Thinking & Reporting Conference that took place on the 12th of June 2023 in Frankfurt, Germany.

The conference showcased the commitment of the IFRS Foundation to provide stewardship over integrated thinking and reporting resources in the years ahead. It would most importantly provide insights, thought leadership, and best practices from pioneers and practitioners, market participants, and academics. It shared how the ISSB was embedding the principles and concepts of the Integrated Reporting Framework within its standards, demonstrating the inextricable link between the value created by a business for itself and others and how integrated reporting has been informing the work of the IASB and what is up next.

The conference convened CEOs, CFOs, industry leaders, standard setters, regulators, integrated reporting practitioners, and academics to share the latest progress in integrated thinking and academic research, together with insights from boards and senior management teams on these issues—and the systems and processes they are putting in place to understand and manage them.

DCarbon and ESG& Join Forces to Promote Sustainable Business Practices in the Middle East

DCarbon announced the partnership with ESG& to advance sustainable business practices in the Middle East.

This strategic partnership combines ESG&s technological expertise with DCarbon's deep understanding of the Middle East.

Thus, we will work towards fostering a more sustainable and responsible business environment in the region. The increasing prominence of ESG issues in corporate decision-making makes our collaboration all the more significant.

ESG& is widely recognized as a leader in the ESG industry. Its cutting-edge technology solutions empower organizations to effectively measure, monitor, and manage environmental, social, and governance (ESG) performance. Their track record of success and reputation for innovation make them an ideal partner for us.

DCarbon has partnered with ESG& and developed a dedicated MEA Emissions Database based on actual reported emissions data to create a powerful solution that will revolutionize how organizations measure, manage, and mitigate climate emissions. ESG& proudly unveils the Climate EDGE Digital Tool, a cutting-edge platform designed to tackle the challenges associated with Scope 1, 2, and 3 emissions.

The Climate EDGE Digital Tool aims to empower businesses across industries to make informed decisions, set ambitious emission reduction targets, and take meaningful action toward sustainability. This database allowed us to create better quality and offering our clients a deeper understanding of their carbon impact.

Two-Day Carbon Footprint reporting training workshop in collaboration with Nile universities

DCarbon collaborated with Nile University School for Continuing Education to deliver a professional two-day Training and workshop Program on Carbon Footprint Reporting.

On the first day, the Program covered a wide range of topics, including but not limited to, Climate Change and its impacts, the fundamentals of Carbon Footprint, identifying GHG Emission Sources, and calculating GHG emissions for Scopes 1&2.

On the second day, DCarbon delved deeper into identifying and calculating Scope 3 GHG Emissions, setting Base Year, Emission Recalculations, Tracking Emissions Overtime, and Reduction plans, and finally the Verification Process. The attendees were engaged through case studies and solving worksheets to gain hands-on experience in the subject.

The objective of this Program was to equip participants with the necessary tools and techniques to accurately calculate and report their organization's Carbon Footprint.

DCarbon and Regenerate Africa Joined Forces to Drive Sustainable Development in Africa

Within the framework of cooperation with African neighboring countries, DCarbon unveiled the latest partnership with Regenerate Africa, a non-profit organization dedicated to fostering a regenerative economy and addressing pressing environmental challenges across the African continent. We aimed to achieve our shared vision of building national capacities for sustainable development and combating climate change.

Our partnership with Regenerate Africa enabled us to collaborate closely with governmental and private sectors, working towards common goals that prioritized environmental stewardship and social responsibility.

One of the primary objectives of this collaboration was to assist countries in preparing comprehensive national reports on sustainability and carbon footprint.

By leveraging our expertise in environmental assessment and carbon management, we supported nations in accurately measuring and understanding their impact on the environment. This knowledge enabled them to develop effective strategies to mitigate climate change and drive sustainable growth.

Additionally, our joint efforts extended to supporting countries in fulfilling their national determined contributions (NDCs). We recognized that meeting these commitments was crucial in addressing global climate challenges.

By providing technical assistance and guidance, we empowered nations to enhance their climate actions and contribute significantly to the global effort of reducing greenhouse gas emissions.

We also collaborated in COP 28, the 28th Conference of the Parties to the United Nations Framework Convention on Climate Change (UNFCCC).

"How to Navigate the Maze of ESG Reporting Frameworks and Standards" Webinar

As part of DCarbon's ongoing efforts to promote sustainability and environmental stewardship, DCarbon has announced the success of its first webinar, «How to Navigate the Maze of ESG Frameworks and Standards,» hosted by Dr. Ehab Shalaby, CEO and Chairman of DCarbon. The webinar took place on Tuesday, August 1st, and provided attendees with valuable insights and tools to enhance their ESG journey.

The highly anticipated webinar featured a comprehensive discussion on the business case of ESG reporting frameworks, the taxonomy of reporting frameworks, and the latest megatrends in reporting frameworks. Participants gained a deeper understanding of the importance of ESG reporting and how to effectively utilize different frameworks and standards.

The event also included an interactive Q&A session, allowing attendees to engage directly with the presenter and receive personalized insights on their specific questions and concerns. Dr. Ehab Shalaby, the esteemed host of the event highlighted that. «It was a great opportunity for participants to gain knowledge and tools that helped them navigate the complex landscape of ESG frameworks and drive sustainable business growth.»

This session promises to be insightful and engaging, providing you with the knowledge and tools to enhance your ESG journey. Don't miss out on this amazing opportunity!

The webinar tackled many aspects:

The screenshot shows a dark-themed interface for a video conference. At the top left is the DCarbon Global logo. The main title "Your Impact Matters" is displayed in large green text, followed by the subtitle "Are you aware of it !!!". Below this is the topic "How to Navigate the Maze of ESG Reporting Frameworks ?". The date "1st of August, 2023" is shown at the bottom left. On the right side, there is a grid of participant profiles, each with a small profile picture, a name, and a red checkmark icon. The names listed include Charles Kabiswa, May Emam, Atheer Osama, Dalia Ibrahim, Hana Mohamed Abd., Mariam Moham..., Tiya Gabriel- FABMISR, Israa Sami, Mona Gohary, Jomana Yasser Al-Ma..., NIONA-NAKUYA, Ibrahim Badawy..., dr.yasser_elsamadisy, Sohaila Nasser - ..., Dr. Hanan El-Amin - S.., Nihal Al Sabbagh, and Eyad Eslam.

The promotional graphic features a large, stylized blue brain composed of a network of lines and dots. A person's hand is shown holding the brain, while another hand is visible on a laptop keyboard in the background. The DCarbon Global logo is at the top left. The main text "YOUR IMPACT MATTERS! ARE YOU AWARE OF IT?" is prominently displayed in large white letters. Below the main title, two subtitles are listed: "How to Navigate the Maze of ESG Frameworks and Standards" and "New Megatrends in Reporting Frameworks". At the bottom, a call-to-action button says "Join Our Live Dialogue". In the top right corner, there is a "Reg" button. The bottom right corner has text "LIVE Q" and "TUESDAY, AUGUST 1ST".

Launch of Website's Accessibility Button, Paving the Way for Equal Online Access for Individuals with Disabilities

As a part of Dcarbon's ongoing efforts toward creating a shared value, In the second half of 2023, DCarbon took a significant step towards promoting inclusivity and embracing the social pillar by launching the accessibility button on its website.

This initiative aimed to support individuals with disabilities and ensure their seamless access to our online platform. By incorporating the accessibility button on our website, we removed barriers and provided equal opportunities for individuals with disabilities to engage with our content and services. We understood the importance of diversity and social protection in fostering an inclusive environment where everyone can participate in building a better future.

"NBK Egypt" GRI-Certified Training on Sustainability Reporting – Round One

In a successful partnership, DCarbon collaborated with NBK Egypt to organize a comprehensive two-day sustainability training program. The program, led by Dr. Ehab Shalaby, Chairman and CEO of DCarbon aimed to provide employees from various functions with the necessary knowledge and skills to obtain The Global Reporting Initiative (GRI) Sustainability Reporting Certification.

DCarbon played a vital role in enhancing NBK Egypt's sustainability practices. We are committed to supporting organizations in their journey toward sustainability, and this collaboration exemplifies our shared vision for a more sustainable future. Furthermore, the comprehensive two-day sustainability training program for employees across various functions to receive The Global Reporting Initiative (GRI) Sustainability Reporting Certification which aimed to empower the employees with the full understanding of how to measure and report on the economic, environmental, and social performance of the bank based on the fundamentals of the GRI standards.

Dcarbon and NCCG Joined Forces to Enhance ESG Practices in MENA, GCC, and Africa

DCarbon, a leading sustainability solutions provider, has officially signed a Memorandum of Understanding (MoU) with the Netherlands Center of Corporate Governance (NCCG) to foster collaborative efforts in advancing Business Environmental and Social Governance (ESG) practices across the Middle East and North Africa (MENA), Gulf Cooperation Council (GCC), and Africa. The strategic partnership between DCarbon and NCCG aims to promote cooperation and knowledge exchange to bolster sustainable business practices in the regions. Both entities have committed to jointly developing a comprehensive series of training programs, capacity-building initiatives, and webinars focused on global best practices in environmental and social governance.

The collaboration is set to kick off with a series of high-impact training sessions in Egypt and the GCC, addressing vital ESG topics such as risk assessment, audit and assurance, data governance, anti-corruption measures, human rights protection, and green procurement practices, among other relevant subjects.

The strategic partnership between DCarbon and NCCG aims to promote mutual cooperation and knowledge exchange to bolster sustainable business practices in the regions. Both entities have committed to jointly developing a comprehensive series of training programs, capacity-building initiatives, and webinars focused on global best practices in environmental and social governance.

Weekly Pre-COP28 Briefs

DCarbon Global provided weekly pre-COP28 briefs, highlighting the consolidation of climate action endeavors. As we gear up for the upcoming UN Climate Conference (COP28), These briefs served as a valuable resource, offering insightful updates on key discussions, advancements, and initiatives leading to COP28.

Road to COP28

A dynamic Workshop was organized by the Arab Forum for Media and Scientific Communication in collaboration with the University of Sharjah and Mr. Hisham Eissa, a board member of DCarbon, to discuss the progress of negotiations at the Conference of Parties.

The workshop proved to be an enriching and enlightening experience, fostering a deeper understanding of the complexities surrounding the Conference of Parties and its role in shaping international climate policy. Participants left with valuable insights and a renewed sense of urgency to address the pressing environmental challenges of our time.

Pioneer a New Horizon

DCarbon Global has become a member of the prestigious IFRS Sustainability Alliance, a global membership program dedicated to sustainability standards, integrated reporting, and integrated thinking.

The IFRS Sustainability Alliance provides Dcarbon Global with an incredible opportunity to be at the forefront of sustainability reporting and financial excellence. As part of this alliance, we will have access to curated insights, cutting-edge educational programming, and a vibrant network of peers, all committed to driving sustainability and innovation in finance. At DCarbon Global, we have always been passionate about making a positive impact on the world through sustainable practices and transparent reporting. Our membership in the IFRS Sustainability Alliance and collaboration with United Accountants will enable us to amplify our efforts and empower our clients with the tools they need to drive meaningful change.

This is not just a milestone; it's a commitment to a greener, more sustainable future, and we invite you all to be part of this journey with us.

The IFRS mission is to develop high-quality IFRS Standards that bring transparency, accountability, and efficiency to financial markets around the world. IFRS serves the public interest by fostering trust, growth, and long-term financial stability in the global economy.

Moreover, IFRS Accounting Standards and IFRS Sustainability Disclosure Standards are developed using the same rigorous, inclusive, and transparent due process. The two boards ensure their work is connected and the Standards can be used effectively together, so that companies also connect their sustainability disclosures with the information in the financial statements. In working together, the IASB and ISSB build on integrated reporting and management commentary concepts.

MENA Climate Week 2023 8-12 October – Riyadh, Saudi Arabia

Dcarbon Global Participated in MENA Climate Week, MENACW 2023 discussed climate solutions ahead of COP28. The event took place from October 8th to October 12th, 2023.

Dr. Ehab Shalaby, Chairman and CEO of DCarbon Global, Participated at the event and addressed opportunities, challenges, and innovative solutions for decarbonization roadmaps in various sectors such as energy, construction and real estate, finance, and infrastructure.

MENA Climate Week 2023 focused on four main thematic tracks:

Track 1: Energy Systems and Industry.

Track 2: Cities, Urban and Rural Settlements, Infrastructure, and Transport.

Track 3: Land, Ocean, Food, and Water.

Track 4: Societies, Health, Livelihoods, and Economies.

On the verge of MENA Climate Week 2023, DCarbon Global and Hayat Business Consulting Forge Strategic Partnership.

On the sidelines of the Middle East and North Africa (MENA) Climate Week held in Riyadh, Qatar's Hayaat Business Consultancy Company announced its strategic partnership by signing an alliance with DCarbon, a leading company specializing in sustainability services and climate consultancy. This partnership comes in alignment with the strategic direction of regional countries in developing a sustainability system at the regional level and the continuous focus on building national capacities in sustainability and climate change management.

Breast Cancer Awareness Month

As part of our dedication to the physical and mental well-being of both women and men, both within and outside DCarbon, we proudly stand by Breast Cancer Awareness Month. In line with our commitment to creating shared value, a collaborative awareness session was held at Dcarbon premises, powered by the Baheya Foundation

DCarbon has adopted the same approach to raise awareness against breast cancer. The objective of the session was to educate and empower our employees about breast cancer and the importance of early detection and prevention. We encourage our partners to take similar initiatives, and we pledge our support alongside them.

1001 Sustainability Knights - Initiative

The Sustainability Knights Initiative is collaborating with the brilliant minds of Dr. Ehab Shalaby and **Mr. Ahmed Mourad**. Moreover, the initiative aims to shed light on a Fusion of Sustainability, Climate Change, and Storytelling.

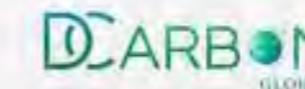

This visionary initiative is dedicated to developing, reskilling, and upskilling the green talents that our world desperately needs. Hence, with an unwavering commitment to overcoming the global green knowledge and skills gap, our mission is clear to shape a future where sustainability is not just a buzzword but a way of life.

Carbon Border Adjustment Mechanism Online Training Programme

Launching the CBAM training as the newly implemented tariff has a significant implications for various Egyptian industries that heavily export to the EU, including the banking sector, aluminum production, cement manufacturing, electricity generation, fertilizer production, and iron and steel manufacturing.

The CBAM training aims to equip these industries with the necessary knowledge and tools to navigate the challenges and opportunities presented by the carbon tariff.

COP28 Briefings

As part of DCarbon's commitment toward our partners and stakeholders, we continue to deliver coverage of major global, regional, and national events. DCarbon prioritizes continuity of efforts toward a transformative and sustainable change, therefore, for the third year in a row, DCarbon proudly presents the COP28 Full Brief document.

The document includes a collection of the most important highlights, daily coverage of events summary, and initiatives that have occurred during COP28. Finally, we concluded with the milestone resolution.

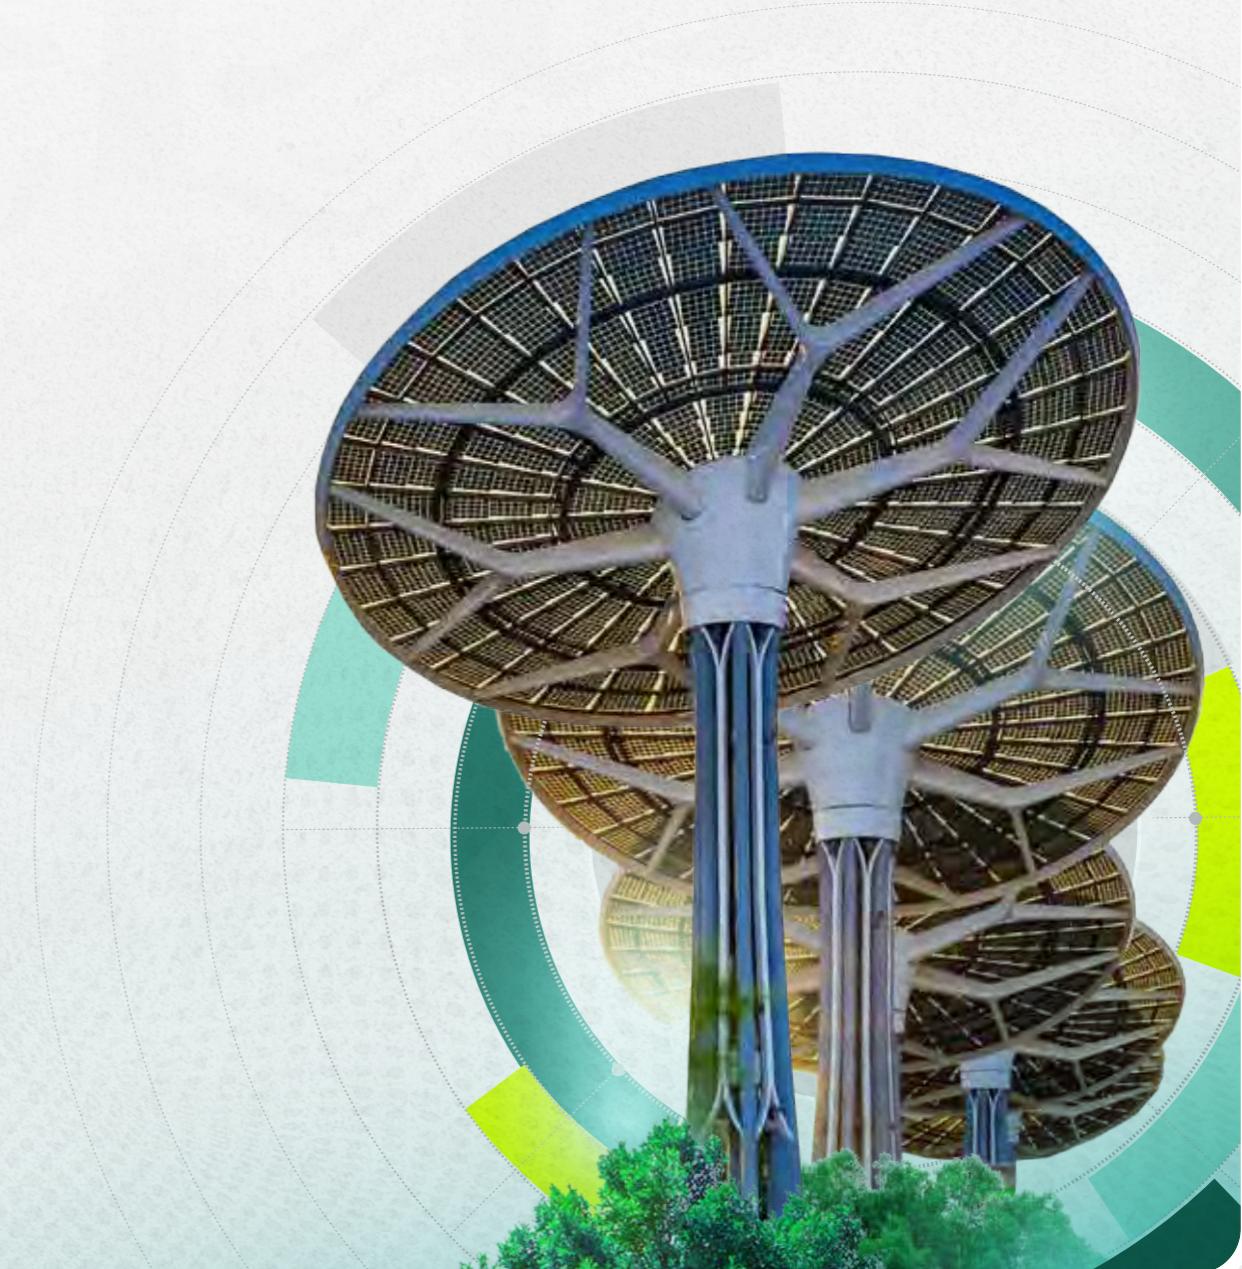

DCarbon firmly believes that knowledge transfer is the most effective means to foster relationships with our stakeholders. Hence, as a trusted knowledge hub and a leader in the fields of sustainability and climate change, we simultaneously work to support evolution, growth, and perpetual change in line with our commitment.
