

DCarbon Highlights

20
21

A strategic partnership between DCarbon Egypt and Total TQ in preparation for integrating the ISO Standards and the Sustainability Reporting Framework of the Global Reporting Initiative.

At DCarbon, we recognize that partnerships are an integral component of success and continue to form innovative and strategic partnerships. With a successful start to the year, we have formed an alliance with Total, combining our complementary capabilities to attain a common goal.

The forging of this partnership aims to bolster global best practices and the internationally recognized standards to be customized according to the Egyptian national context and the unique nature of its targeted sectors, particularly the financial, industrial, petroleum and service Sectors.

TCI Sanmar Chemicals is on the path to develop its second sustainability report.

Following the successful completion of its first sustainability report, we ardently work alongside TCI Sanmar to develop its second sustainability report. To ensure high transparency and accountability we conducted a refresher workshop and stakeholder engagement for the process.

In order to prepare a sustainability report that is an honest, accurate, and complete reflection of its activities, a two-day GRI Training program for Sanmar's Sustainability Ambassadors commenced. TCI Sanmar is taking a step forward to develop the First Life Cycle Assessment (LCA), and Environmental Product Declaration (EPD) for its PVC product.

Helwan Fertilizers Company 1st Sustainability Report (2019)

As a leading innovator and pioneer in the sustainable transition in Egypt, DCarbon is proud to support Helwan Fertilizers in its nascent sustainability journey by announcing the publication of its first Sustainability Report according to GRI Framework for the year 2019.

The report is a testament to HFC's commitment towards creating a communication channel with all stakeholders to help foster informed dialogue and understanding.

This report enhances transparency, details the company's economic, environmental, and social performance, brings challenges and risks forward, and elaborates on the management approach for mitigating risks, seizing opportunities, while presenting HFC's sustainability practices and plans as a critical component of its growth strategy.

With this report, HFC is establishing a baseline for future performance and communicating its priorities to all stakeholders.

Memorandum of Understanding between DCarbon and the Saudi Network for Social Responsibility

In support of the efforts of the Kingdom of Saudi Arabia and the Arab Republic of Egypt to implement the national sustainable development goals represented in Saudi Vision 2030 and Egypt Vision 2030, DCarbon has agreed to provide advisory and training solutions.

In cooperation with Saudi Arabia, we plan to develop advisory services and training solutions in the field of sustainable development and climate change for governments, public and private sectors and civil society.

The first cooperation activities will start with a training workshop on preparing sustainability reports, in cooperation with the Arab Administrative Development Organization, in accordance with the latest and most common international standards.

دعاً لجهود كل من المملكة العربية السعودية وجمهورية مصر العربية لتنفيذ أهداف التنمية المستدامة الوطنية الممثلة في رؤية المملكة و مصر .٢٠٣٠، و دعماً لجهود العالمية الممثلة في أهداف التنمية المستدامة الدولية والتي تم إقرارها في إجتماع رؤساء الدول والحكومات بمقر الأمم المتحدة في نيويورك سبتمبر ٢٠١٥ والذى شرف بحضور كل من جمهورية مصر العربية والمملكة العربية السعودية والإتفاق على العمل على ضرورة تفعيل هذه الاهداف حتى عام ٢٠٣٠.

إنطلاقاً من الدور الريادي لكلا من الشبكة السعودية للمسؤولية الاجتماعية وشركة دي كاربون لاستشارات في تقديم الحلول الاستشارية والتدريبية في هذا المجال، فلقد اتفق الطرفان على التعاون في مجالات تطوير الخدمات الاستشارية والحلول التدريبية في مجال التنمية المستدامة والتغيرات المناخية للحكومات وشركات القطاع العام والخاص والمجتمع المدني وفقاً لأحدث المعايير والأطر العالمية.

DCarbon and Global Sustain Group promote the “Green and Sustainable Finance Certificate” in Egypt

DCarbon proudly announces that its strategic partner, Global Sustain Group, joined forces with the Chartered Banker Institute, the largest professional body for bankers in the UK. DCarbon and Global Sustain Group will actively promote in Egypt the “Green and Sustainable Finance Certificate” developed and provided by the Chartered Banker Institute, as one of the most prominent and credible professional certifications and accreditations in the field of sustainable finance.

Chartered Banker

Global Sustain Group and
Chartered Banker Institute
Join forces.

A partnership for Green and
Sustainable Finance Certificate

New Era of Green and Sustainable Finance

Building on momentum we created at the start of the year, DCarbon continues to build its convergent efforts as a force for growth while advancing talent and expertise. For the first time in Egypt, DCarbon and Global Sustain launch the “Green and Sustainable Finance Certificate” provided by the Chartered Banker Institute, as one of the most prominent and credible professional certifications and accreditations in the field of sustainable finance. Participants to our Executive Training Programme on ESG and Sustainable Finance will be prepared and equipped to take the online Certificate in Green and Sustainable Finance provided exclusively by the Chartered Banker Institute, the largest professional body for bankers in the UK. Upon the Certificate’s completion, participants are entitled to use the designation “Green and Sustainable Finance Professional”

EGYPT: NEW ERA OF SUSTAINABLE FINANCE

Egypt's First Carbon Neutrality Initiative | DCarbon® Carbon footprint Calculator (CFC)

With our future oriented work process, and in conjunction with public interest and environmental protection, we have developed a Carbon footprint calculator.

To raise awareness on climate change risks and help private and public institutions mitigate their own GHG emissions.

"Your Impact Matters.. Are You Aware Of It"

DCarbon Egypt, is delighted to provide an open-source simple tool to calculate GHG emissions as a preliminary step towards understanding institutional impact.

Stemming from the belief that we only manage what we measure, DCarbon CFC is designed to give you a rough estimation of your GHG emissions and its sources.

A step that is important to facilitate and support decision makers to reduce their carbon emissions.

"We Manage What We Measure"

DCarbon CFC Calculator

DCarbon CFC Calculator is your basic tool to get a quick, rough estimate of your carbon footprint according to the Greenhouse Gas Protocol.

DCarbon CFC Calculator is meant to help you visualize and understand the sources of your emissions, and accordingly act as a decision support tool, that assist decision makers in taking appropriate mitigation actions.

Let's Get Started

CIB Egypt – UNEP FI Principles for Responsible Banking

Remaining committed to our mission to drive and manage sustainable transition we worked alongside CIB Egypt to publish its first assured progress report on the Principles for Responsible Banking.

CIB Egypt is the sole and first bank to report on the Principles for Responsible Banking in Egypt and the Middle East, in accordance with the UNEP FI requirements.

'Towards an Impact-driven Approach' marks an unprecedented step of assessing the economic, social, and environmental impacts of the Bank's lending portfolio, enriching the Bank's sustainability strategic direction, and setting a new benchmark for the Egyptian Banking Industry.

To know more about CIB's progress towards the implementation of the Principles for Responsible Banking, click here:

DCarbon Egypt Celebrating the International Women's Day !

Here's to all strong women!

May we hear them.

May we be them.

May we raise them.

Thanks to all DCarbon ladies for their efforts and hard work!!!

New National Benchmark for the Egyptian Healthcare sector

DCarbon delivered to Integrated Diagnostics Holdings - IDH a dedicated GRI Training Program on Sustainability Reporting on 17-18 March 2021 at IDH's headquarters in Cairo.

The objective of this training was to build the capacity and skills of 16 sustainability ambassadors within the company to support all functions and teams in the reporting process of their 1st sustainability report in accordance with the GRI Standards, the most trusted and commonly used sustainability reporting standards by top corporates and organizations across all industries worldwide.

We are delighted to devotedly assist a leading Healthcare provider, IDH Group, in their 1st sustainability report and support them to communicate IDH's efforts and positive impact to its customers, communities, and the environment as a responsible and sustainable healthcare provider through quality services, efficient operations and a strong presence across Egypt.

This GRI Training is certified by the Global Reporting Initiative (GRI) through its GRI-certified training partner and consultant of IDH, DCarbon Egypt.

ESG & Sustainable Finance Executive Training Programme delivered successfully by DCarbon Egypt & Global Sustain Group

An ongoing effort to promote Green and Sustainable Finance in Egypt

DCarbon proudly aspires to contribute to the integration of Sustainable Finance Frameworks, Standards, and related sustainable finance products at the national level. In this way, we aim to support the Egyptian government and the local market to:

- Attract foreign investments
- Adopt and mobilize sustainable financial instruments such as green bonds, and sustainability-linked loans
- Promote project financing opportunities from international financial institutions like EBRD, IFC, and EIB.

To this end, Egypt will have adequate support from all stakeholders to achieve the targets of the National Sustainable Development Strategy- Egypt's Vision 2030, the Paris Agreement, and the UN Sustainable Development Goals.

At DCarbon, we acknowledge that to achieve these developments, all finance, as well as corporate professionals, need to enrich their knowledge of green and sustainable finance.

For this reason, the first of its kind Sustainable Finance Training Programme in Egypt was delivered in September 2020 by DCarbon in cooperation with our strategic partner, Global Sustain Group.

In continuation of our efforts, DCarbon and Global Sustain Group delivered successfully the **ESG & Sustainable Finance Executive Training Programme on 5-7 April 2021 in Cairo**. This Executive Training Programme marks the official launch of the "Green and Sustainable Finance Certificate" provided by the **UK-based Chartered Banker Institute** for the first time in Egypt.

The purpose of this training was to assist our participants from key sectors such as banking, transportation, F&B, construction materials, and academia, among others, in developing their knowledge and expertise of Green and Sustainable Finance and get prepared to take the Green and Sustainable Finance Certificate provided by the Chartered Banker Institute, the largest professional body for bankers in the UK.

The Certificate in Green and Sustainable Finance encompasses broader aspects of sustainability, aligned with the UN Sustainable Development Goals, and helps participants develop their understanding of, and apply, green and sustainable finance principles and practice in their roles and within their organizations.

Following our Programme, learners will take the exam of the Institute and upon completion of the Certificate, they will be entitled to use the professional accreditation and designation: Green and Sustainable Finance Professional™.

The program was attended by major participants including **Commercial International Bank Egypt (CIB)**, **Banque du Caire (BDC)**, **QNB**, as well as **CocaCola**, **SuezCement**, **Zetech** and **academia**; the training program was successfully completed.

Lekela Egypt for Renewable Energy Session

Lekela Egypt for Renewable Energy, held on April 5th, 2021 a hearing session on the registration process of the Wind Energy Project in the Red Sea region as one of the projects that reduce carbon emissions.

The objective of the session is to register the project in the Gold Standard Mechanism.

The session was attended by a large number of development partners. The attendees included representatives from First Climate who is managing the registration process on the international platform, the Ministry of Environment, the Egyptian Stock Market, Vodafone Egypt, and DCarbon Egypt.

The most important outcome of the session is the re-surface of the Carbon Market Mechanisms on the national sphere as one of the mechanisms that DCarbon Egypt has been calling for as a mitigation tool to reduce GHG emissions toward achieving Paris Agreement.

DCarbon Egypt is taking the opportunity to congratulate Lekela, Gold Standard, and all the project stakeholders for their important initiative in this regard that revives a key mechanism that counter the negative effects of climate change and encourages the move toward increasing renewable energy contribution in the national energy mix.

DCarbon to Al Arabiya: America Wants to Lead the Climate Change Politically and Economically

العربية
alarabiya

Dr. Hisham Eissa - Climate Change & Environmental Expert shared that US President Joe Biden pledged that his first decision upon taking office would be to rejoin the Paris Agreement, thereby, strengthening international efforts to combat climate change. U.S. Special Presidential Envoy for Climate, John Kerry provided strong indications of the efforts of the Biden Administration.

Dr. Hisham added that with these efforts, the United States presented its leadership's interest in climate change. A turning point, he suggested, as the issue of climate change pivots from a scientific problem to a political and economic concern.

In addition, Dr. Eissa shared that for the first time since the Cold War, the world convenes on one issue with the agreement of all the great powers, along with developing countries on the urgency of confronting the climate emergency. With the United States rejoining the agreement, he believes it provides a greater force of influence globally.

From an economic point of view, Dr. Eissa shares, reducing emissions requires advanced technology that is more readily available in America and Europe, and crucial for developing countries to achieve their climate goals. In turn, resulting in greater gains for manufacturers, and creating an opportunity for international institutions to provide funding for developing countries to acquire advanced environmentally friendly technology.

General Authority for Investments (GAFI) – awareness raising session on Global Reporting Initiative (GRI) Sustainability Reporting Standards

In our pursuit to support and advance Egypt's efforts towards sustainable development, DCarbon Egypt held an awareness raising session for the General Authority for Investments (GAFI) on sustainability reporting in accordance with GRI principles and frameworks. We are looking forward to GAFI's first sustainability Report.

Attijariwafa Bank Egypt 1st Sustainability Report (2019 – 2020)

Signifying our commitment and deliberate contribution to sustainability efforts, DCarbon worked alongside Attijariwafa bank Egypt to publish its inaugural Sustainability Report “Building a sustainable future”, in accordance with the Global Reporting Initiative (GRI) standards.

The Report outlines how the bank is putting sustainability at the forefront of its strategy. It provides detailed information for all their environmental, social and governance (ESG) priorities and initiatives for 2019-2020 in line with the Group's corporate social responsibility strategy, UN Sustainable Development Goals, and Egypt's Vision 2030 for sustainable development.

QNB ALAHLI – certified training on Global Reporting Initiative (GRI) Sustainability Reporting Standards

DCarbon & the QNB ALAHLI Bank accomplished a new milestone in the bank sustainability journey by certifying QNB ALAHLI's Sustainability Ambassadors on GRI Sustainability Reporting.

DCarbon, as a GRI-certified training partner in Egypt, delivered to QNB ALAHLI a 2-day certified training on Global Reporting Initiative (GRI) Sustainability Reporting Standards.

The objective of this GRI Training Programme was to build the capacity and skills of the bank's Sustainability Ambassadors and support all functions in order to successfully develop QNB ALAHLI's sustainability report in accordance with the GRI Standards.

GRI Standards are the most commonly used standards by top corporates and organizations across all industries worldwide and nationwide recommended by the Egyptian Stock Exchange.

We are pleased to support the QNB ALAHLI Bank in its roadmap towards sustainability in general and in the development of its sustainability report in particular.

National Bank of Egypt (NBE) – certified training on Global Reporting Initiative (GRI) Sustainability Reporting Standards

DCarbon Egypt expresses its sincere congratulations on NBE's new milestone achieved. The National Bank of Egypt successfully certified 100 Sustainability Ambassadors on GRI Sustainability Reporting.

DCarbon proudly delivered to the NBE a 4-week Master Training Plan on Sustainability Reporting in accordance to the Global Reporting Initiative (GRI) Standards.

GRI Standards are the most commonly used standards by top corporates and organizations across all industries worldwide, and nationwide recommended by the Egyptian Stock Exchange.

The objective of this massive GRI Training Programme was to build the capacity and skills of a batch of 100 sustainability ambassadors within the bank to support all functions in order to successfully develop future sustainability reports and advance ESG disclosure standards, and to this end, Develop NBE's performance in environmental, social, and governance issues.

We, DCarbon, are honored to cooperate with the NBE, which served the Egyptian economy and society for more than 122 years now.

This GRI Training Programme delivered to the 100 NBE employees is certified by the Global Reporting Initiative (GRI) through its GRI-certified training partner and consultant of NBE, DCarbon Egypt.

ESG Priorities for the banking sector in Kuwait

Adhering to the principles of sustainable development with an approach aiming to foster a more sustainably conscious society, Dr. Ehab Shalaby, DCarbon's Chairman, joined as a Subject Matter Expert at the specialized Workshop titled "ESG Priorities for the banking sector in Kuwait".

PwC Middle East hosted this specialized workshop on how the ESG playing field is evolving and the ESG requirements and standards related to the financial and banking sector in the State of Kuwait.

We, DCarbon, look forward to engaging with key stakeholders to support the full-fledged integration of sustainability in the banking sector of Kuwait and the GCC region altogether.

NBE's 1st GRI Comprehensive Sustainability Report (2016-2019)

NBE officially published its first GRI -Sustainability Report covering three years' disclosure 2016-2019 (the biggest of its kind within the banking sector) as a baseline year edition. The report has been classified as Comprehensive Global Reporting versus a core disclosure. Headlined "120 Years of Banking and Beyond"; we are hereby honored and proud to walk you through our sustainability storytelling journey; showcasing our triumphs in the endeavor of creating sustainable value inclusively and smartly for all our stakeholders.

120 YEARS OF BANKING AND BEYOND

Sustainability Report
2016-2019 | Baseline Year Edition

Egypt's 3rd Annual Forum on Strategies for Transition to Green Economy: "Sustainable Finance and Green Investment"

Dr. Ehab Shalaby, Chairman of DCarbon Egypt, alongside Dr. Hisham Eissa Climate Change & Environmental Expert, participated in the "**Responsible Finance and the Future of SMEs**" session of Egypt's 3rd Annual Forum on Strategies for Transition to Green Economy: "**Sustainable Finance and Green Investment**", held on 14 June 2021 and organized by Egypt under the patronage of **Prime Minister H.E Dr. Mostafa Madbouly**.

The session brought together bankers, investment professionals, and impact asset managers to share visions and review the challenges and opportunities of the Egyptian market's post-pandemic future, driving green recovery, digital transformation, and sustainability excellence while transitioning toward more sustainable and resilient business practices.

Dr. Ehab Shalaby, PhD had the opportunity to discuss with Dr. Mahmoud Mohieldin, Executive Director of the International Monetary Fund (IMF) Egypt's progress status during the session: "Aligning ESG, SDGs and Net Zero for Sustainability and Progress".

Egypt's 3rd Annual Forum on Strategies for Transition to Green Economy: "Sustainable Finance and Green Investment"

As an expert in environmental sciences and climate change, Dr Hishman shared that it is no longer sufficient to rely on green projects from international organizations in the financing process, instead further commitment from society and individual initiatives are crucial in maintaining the transition towards a green economy and achieving the sustainable development goals.

Moreover, he shared Egypt's tremendous progress in achieving unprecedented growth rates. He adds that all procedures and mechanisms must be simplified in order to effectively transition towards a green economy, stressing the need for private sector institutions to encourage the youth to fuel innovation, especially in the green projects sector.

We, **DCarbon**, are delighted with the positive stakeholders' response at the Forum and more importantly.

We are thrilled to see that DCarbon's contribution is already making a difference in the way that major Egyptian market participants manage, share, and create value.

Social Responsibility Diploma of the Arab Administrative Development Organization

Dr. Ehab Shalaby, Chairman of DCarbon Egypt participated in the Social Responsibility Diploma of the Arab Administrative Development Organization and the Saudi Network for Social Responsibility. The diploma aims to enhance the skills of workers in the Kingdom to participate in the implementation of sustainable development plans.

الهيئة الملكية بالجبيل توقع مذكرة تفاهم مع مؤسسة الشبكة السعودية لتعزيز الشراكة والتعاون في مجال المسؤولية المجتمعية

تهنئ شركة دي كاربون شريكها الاستراتيجي الشبكة السعودية للمسؤولية الاجتماعية بالمملكة العربية السعودية على توقيع مذكرة تفاهم مع الهيئة الملكية بالجبيل بهدف تعزيز الشراكة والتعاون في مجال المسؤولية الاجتماعية للإسهام في تحقيق أهداف التنمية المستدامة وتأهيل الممارسين بالشركات بشكل منهجي وعلمي.

Banque du Caire 1st Sustainability Report (2019)

Continuing to break new ground, DCarbon worked in parallel with Banque du Caire to publish its first Sustainability Report according to Global Reporting Initiative International Standards, marking an important milestone in its sustainability journey. The report highlights BDCs imperative role in fostering a sustainable future while offering clarity on its tangible actions and corporate governance obligations.

Since the appointment of the new board in January 2018, Banque du Caire (BDC) has undergone a transformation journey with the objective to capitalize on all business segments, promote financial inclusion and leverage its solid range of products and services.

This transformation has not only enhanced their financial performance, but also has resulted in creating shared value to their stakeholders.

BDC legacy of more than 6 decades gave them leverage to completely revamp their day-to-day operations through a comprehensive strategy that aims at transforming Banque du Caire into a client-focused organization with sustainable financial performance while maintaining the reliable and strong relationship with their clients that BDC has always been proud of.

TCI SANMAR CHEMICALS S.A.E.

TCI SanMar Chemical SAE 2nd Sustainability Report (2019 – 2020)

With a sustainable vision and a need to have a real impact on global challenges, DCarbon worked in conjunction with TCI SanMar Chemical SAE to publish its second sustainability report covering the period from 1/4/2019 till 31/3/2020 in accordance with the Global Reporting Initiative (GRI) framework, core option. The report covers SanMar's environmental, social, and economic performance during a globally challenging period. The report underscores the company's resiliency and the administration's constructive decisions that were key factors in persevering through a period of uncertainty and chaos.

Producing its annual sustainability report is one of SanMar's numerous commitments that work towards making Egypt and the whole world a better place for generations to come.

To read more about Sanmar's journey, please access the report through: <http://www.sanmargroup.com/pdf/TCI-Sanmar-SR-2019-20.pdf>

Sustainability Report

Forward Pathway

2019/2020

DCarbon's Expansion in Middle East & Arab States

Positioned to help organizations thrive, DCarbon continues progress toward a more sustainable future through expansion and collaboration. Starting from 1st October 2021, DCarbon Egypt is expanding its operations to conduct the Global Reporting Initiative Sustainability Reporting Training in the Middle East & Arab States.

Looking forward to sharing and transferring knowledge to our partner countries.

Historical Milestones

DCarbon proudly congratulates Prof. Dr. Nasser Ayoub, PhD, LCAP - CEO of EPD Egypt on the membership of the steering committee of the life cycle initiative hosted by the UNEP.

This is a historical moment as Dr. Nasser is the first member to the steering committee from the African Region.

Dr. Ayoub had the highest number of votes on the ballot, and he superseded all other running candidates by two folds of the votes, while tied with a co-candidate for that singular membership position on the committee.

The tie was won in his favor, announcing Ayoub's new position on the Steering Committee, and also being also the first winning member from the African Continent.

Hosted by UN Environment, the Life Cycle Initiative is at the interface between users and experts of Life Cycle approaches. It provides a global forum to ensure a science-based, consensus-building process to support decisions and policies towards the shared vision of sustainability as a public good. It delivers authoritative opinions on sound tools and approaches by engaging its multi-stakeholder partnership (including governments, businesses, scientific and civil society organizations). The Initiative facilitates the application of life cycle knowledge in the global sustainable development agenda in order to achieve global goals fast

Dubai Expo 2020, presenting Green Recovery Strategy

To articulate a conceptual framework for sustainable development with politics at the center, Dr. Ehab Shalaby, Chairman of DCarbon Egypt participated in Dubai Expo 2020 presenting Green Recovery Strategy in Egypt.

with the participation of:-

- Mr.Mohammed Elewa National Project Manager of Mainstreaming Biodiversity in Egypt's Tourism (MBDT)
- Dr. Hussein Abaza, Advisor for the Minister of Environment of Egypt

Moderated by:-

- Engineer Samah Saleh, General Director & Head of Sustainable Development Unit

This session focused on the political priorities of the government and how it reflected on national strategies and policies for achieving sustainable development and green recovery.

Circle the Med – The Mediterranean Hybrid Forum 2021

DCarbon Egypt had the honor of co-organizing the “Circle the Med” Forum 2021. A forum with the purpose of bringing multilateralism and regional cooperation into focus by combining forces with other Mediterranean countries to create synergies towards a sustainable and climate-resilient future for the Mediterranean.

With the generous presence of participants from all over the world in different fields, and addresses a series of online discussions on a number of different topics:

“Circle the Med” 2021 brought together institutional, political, academic, and business leaders from the pan-Mediterranean area to develop a MED Roadmap that promotes cohesion, cooperation, and prosperity in the region.

Green Growth Strategic Direction and Action

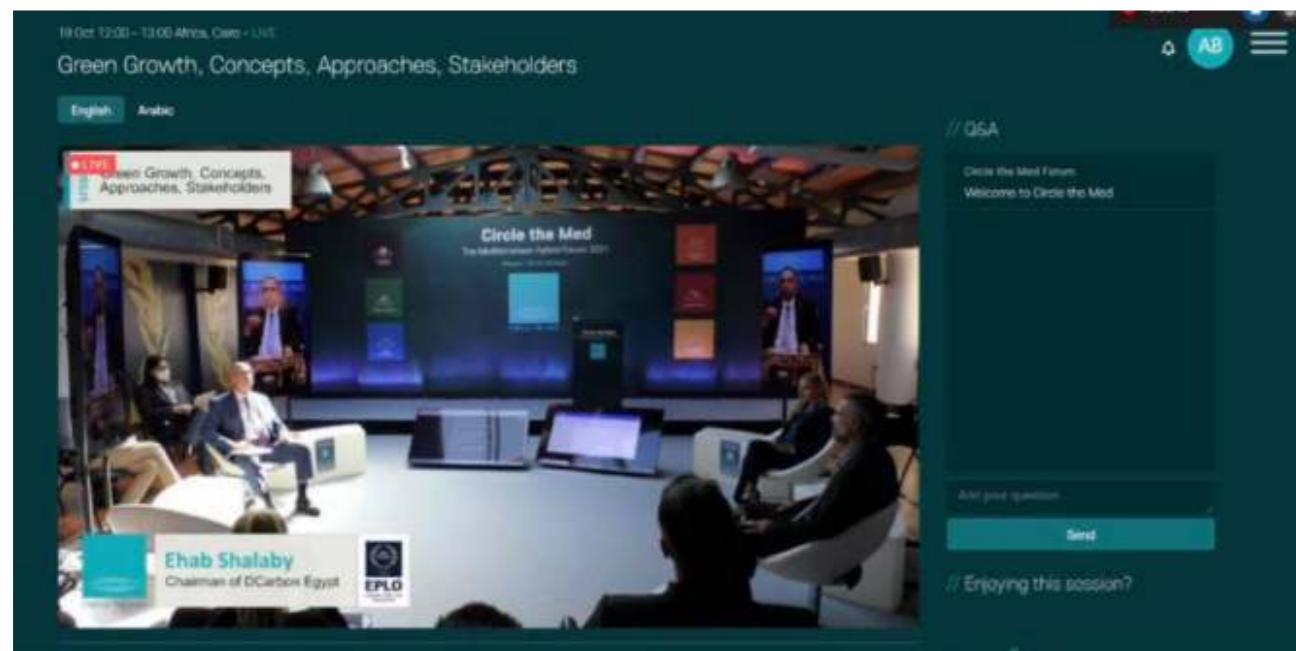

H.E Yasmine Fouad -Minister of Environment Arab Republic of Egypt attended Green Growth, Strategic Directions and Actions

“Green Growth is a path to economic growth that uses natural resources in a sustainable way. It is an alternative concept to typical industrial economic growth. This path leads to what is known as a Green Economy”

Green Growth, Concepts, Approaches, Stakeholders

Dr. Ehab Shalaby highlighted « Egypt Green Growth efforts » in Circle the Med - The Mediterranean Hybrid Forum 2021

COP26 Agenda

DCarbon created the COP26 Agenda, highlighting the objectives and paramount achievements of the conference.

What is COP?

Conference of the Parties (COP), is a two-week global climate conference that has taken place annually since 1995. It is held in the framework of the United Nations Framework Convention on Climate Change (UNFCCC), with 197 member parties. COP is a momentous occasion that serves as a platform for countries to negotiate more radical climate commitments. Gathering tens of thousands of climate experts and activists and many watchful eyes, COP has a clear objective of "preventing dangerous human interference with the climate system".

What is COP 26?

COP 26 is the 26th annual conference on climate change held in Glasgow, Scotland, from 31 October - 12 November 2021. With four main objectives, COP26 focuses on mitigation, adaptation, finance, and collaboration. This year's conference is attended by Egyptian President Abdel Fattah El Sisi as he represents the countries of the African continent as Egypt prepares to host the next conference on climate change (COP27) in 2022.
